

Sinclair Broadcast Group has stepped over the line in its decision to broadcast an hour long attack add. I have seen, in other TV shows and shorter adds, the beliefs of the group who have made the movie that Sinclair intends to show. The producers of this film have strayed far from the truth. I was a young person during this time and I feel that this is a real rewrite of history .

Sinclair uses the public airwaves free of charge, and is obligated by law to serve the public interest. I am confused and concerned that showing this movie is not considered an in kind gift to the Bush campaign and identified as such. I am also mistified as to why the Kerry campaign can not have a true chance to have equal time.

This is serious business and I am dismayed at the cavalier way in which this media group has treated its customers. Making an assumption that all of its stock holders and others support the management in its political beliefs.

Sinclair's actions show why we need to strengthen media ownership rules. Thank you.
